Dublin, Ireland

Profile

An experienced developer, working mainly with front end technologies. Comfortable working independently and with a team. Confident, flexible and detail-oriented. Effective time management, working well under pressure.

Over 5 years experience in the events industry in both planning and technical roles. An active interest in the intersection of technology and the arts.

Familiar with agile, scrum, lean and kanban methodologies. Looking to join a work environment that is challenging and supports continued development, sharing knowledge and learning from others.

Skills
